Prophetic Word for JJCM released by:

*Dr. Russ Moyer – Eagle Worldwide Ministries*

Pastor Carol, I see lions laying on your lawn. I look again and I see one lion and I see a bunch of lionesses laying on the lawn. They're just laying there. And I see next to them, around them are gems. I remember when that eagle came in Florida, with Gail and Reid and I, and he wasn't scared, and we weren't scared. That's how these are, they're just laying there but there's all gems in between them. And the Lord said I'm gonna weed and I'm gonna seed, I'm gonna prepare. And know that in this hour you're going to raise up and empower women. And you're gonna be a voice for women that are gonna raise women up, in this season, to do what they're called to do. I see some coming, some going, some coming, some going. I see them doing all kinds of things. And I see a door, it revolves, and it turns back and revolves. And I see some people that have gone that are gonna come back. And they go and they come back. I see them standing, waiting.

Now I look again, the lions are standing up. The lioness are standing up. This is the season where God is going to empower women like never before. Not as judges, but as carriers of the Glory, worshippers, intercessors, keepers of the flame. Prophetic voices that will declare and proclaim. I hear this sound and it's moving and it's rumbling. I hear people, who for years and years, said no, they had a gender block in their mind. But God's taking that away. I see them rising, and rising, and rising. And I see the doors open wide, and I see a reception being held. And I see the elder city and I see 'em receiving and receiving and receiving these waves of women coming in.

Father, I thank you, that Your mother heart would be released in this hour and season. That You would raise up mothers that would nurture, that would birth, that would build, that would be powerful, Lord, and we give You the glory and honour. And we give You all the praise, in Jesus' Name.
