**Prophetic Dream for JJCM by:**

***Jonathan Edwards***

I wanted to send you an email regarding a prophetic dream/vision I had in the US concerning Jehovah Jireh church/ministries. I did not have this once but three times in the middle of the night.

In the dream I heard the words, the barn is on fire, when I looked the barn was ablaze with fire, I saw the fire brigade come and try to put the fire out, but it kept burning. I also saw many cars turn off the road and come onto the property and gaze at the fire, nothing nobody could do, could put out the fire.

Crowds of people were just coming and coming and just standing around the fire and gazing at what was happening.

I also saw many other barns in the area that were releasing smoke, but there was no fire, plenty of smoke but no fire!

Carol I really feel this is a word from the Lord, I am sure the Lord will give you insight into this word, but for me it keeps about revival and the glory of the Lord, and that a fresh move of God is being prepared by the Holy Spirit to break out amongst His people.

I think the difference between smoke and fire shows that what you are building is authentic, and will release a genuine move of the Spirit, and people will come to see what God is doing and gaze into and experience the glory of the Lord.
